Foot and Ankle Unit

The Wellington Foot and Ankle Unit combines the latest in sophisticated technology with the considerable experience of a highly skilled team of orthopaedic surgeons, with specialists in minimally invasive keyhole surgery. Our aim is to provide patients with the best treatments available in one of the UK's most prestigious private hospitals. The Wellington Hospital is a first class hospital, providing outstanding medical care, which has earned an international reputation for excellence.

Foot & Ankle Problems

Whatever your foot and ankle problem it can be managed by the Unit. Whether you have a painful and deformed bunion restricting your shoe wear and ability to walk, an unstable ankle preventing return to sport or a painful joint making life miserable. You will experience unhurried consultations with nationally recognized experts offering the widest range of possible treatments.

The foot and ankle is an area of the body where choice often exists between operative and non-operative treatments and the team within the Unit will all work closely together to offer you the widest and most appropriate choice of management.

For more detailed information visit our website at:
www.wellingtonfootandankleunit.com.

The Team

Mr Mark Herron MB ChB FRCS FRCS(Tr&Orth)

Formerly Consultant Surgeon at the Royal Orthopaedic Hospital where he developed the Foot and Ankle service. Mr Herron set up the Foot and Ankle Clinic at the Priory Hospital in Edgbaston, Birmingham in 2004 and remains the director of this multi-disciplinary group practice. Mr Herron's practice encompasses all areas of adult and adolescent elective and traumatic conditions of the Foot and Ankle. Mr Herron is Foot and Ankle Surgeon to the British Gymnastics Team.

Mr Simon Moyes MB ChB FRCS (Tr&Orth)

Simon Moyes took up a post of Consultant Orthopaedic Surgeon at UCL Hospitals in London in 1994 with a special interest in arthroscopic surgery in sports medicine. He went into full time private practice in 1997 and continues this. Mr Moyes's main orthopaedic interests are of arthroscopic and minimally invasive treatment of problems of the knee, shoulder, foot and ankle. Research interests currently are development of minimally invasive and arthroscopic techniques for the knee, shoulder, foot and ankle.

Mr Nick Cullen MBBS BSc (Hon) FRCS (Orth)

Mr Cullen was appointed as a Consultant in the Foot & Ankle Unit of the Royal National Orthopaedic Hospital Trust, Stanmore in August 2005. The Foot & Ankle Unit at the RNOH is a tertiary referral centre, treating many of the complex foot & ankle cases that are referred from hospitals throughout the South of England. Dealing solely with problems of the foot and ankle, Mr Cullen's interests include sports injuries, bunion, toe deformity, arthroscopy, arthritis and tendon disorders.
